6. Zenner Road Park

NEXT STEPS

ACKNOWLEDGEMENTS
INTRODUCTION & PURPOSE

John M. McDonald Engineering, P.C. was retained by the Town of Niskayuna to complete a Town Parks Master Plan Study to identify the existing features and future plans and goals for the following six Town parks:

1. Avon Crest Park
2. Becker Street Park
3. Blatnick Park
4. Community Center
5. River Road Park, and

This Parks Master Plan is a planning tool which serves as the basis for future long term improvements that will maximize recreational function, usability and balance among the Town park facilities.

Community involvement is a cornerstone to this effort to ensure that the needs of the various recreational uses are considered in the evaluation phase. Town officials have consulted with, and sought important guidance from, Town recreation committees to identify the short and long term deficiencies and needs of each park. Each identified project or initiative has been given a timeframe rating (short term or long term), and associated cost estimates have been developed for each improvement. These items will aid the Town in future budgeting, fundraising and grant solicitation in order to implement the proposed park improvements.

The report provides an inventory of the existing recreational uses and facilities, and discusses the deficiencies along with the proposed improvements at each park.
STUDY AREAS
Existing Facilities and Uses

The Town of Niskayuna Master Plan Park Study consists of six parks that the Town maintains for use by its over 21,000 residents\(^1\), at the following locations:

1. Avon Crest Park
2. Becker Street Park
3. Blatnick Park
4. Community Center
5. River Road Park
6. Zenner Road Park

This report provides historical information, along with current uses and key features at each park. The McDonald Engineering Team, along with Town Board, Town staff members and community organization representatives met over the course of several months, and site visits were conducted to review the deficiencies and identify various goals/improvements for each park. Input from athletic leagues and other primary park users was collected by the Town for consideration in this Plan.

\(^1\) 2010 United States Census
Park Locations

[Map showing various park locations such as Aqueduct Park, Blatnick Park, River Road Park, Becker St. Park, Zener Rd. Park, Avon Crest Town Park, Community Center, and Niskayuna.]

STUDY AREAS
AVON CREST PARK

- Inventory
- Existing Features Map
- Plans and Goals
- Proposed Site Plan Map
- Cost Estimate
AVON CREST PARK

ACREAGE
Approximately 10.6 acres.

CURRENT PARK USE
This park was granted to the Town of Niskayuna as part of the Avon Crest Subdivision from Crest Development in 1970 to provide a recreational use are for the Town residents and is generally used by nearby neighborhood residents.

EXISTING FACILITIES
Playground
Tennis/Pickleball Courts
Basketball Court
Volleyball Court
Recreational Softball Field
Cricket Field
Small Covered Pavilion/Restrooms
(The pavilion can be rented from the Town on a per diem basis.)

TOWN AND COMMUNITY PROGRAMS
Town summer playground camp
Community softball leagues
Community cricket leagues
AVON CREST PARK

EXISTING DEFICIENCIES/PROBLEMS
1. The existing paved tennis/pickleball courts have settled in various areas causing some surface ponding and puddling.
2. The existing basketball court has some minor pavement cracking.
3. The playground equipment is aged and not in close proximity to the pavilion area.
4. The memorial benches need repairs.
5. The softball field is oriented in a way that flying foul balls land too close to the pavilion area.
6. Tennis court fencing is in poor shape.
7. Parking is limited on site.
8. The park sign is outdated.

PROJECTED FUTURE USE
The future park use will remain the same as the current park use which is primarily recreational.

SHORT TERM GOALS
1. Replace and update the park sign.
2. Replace and relocate with new playground equipment to be located closer to the pavilion area to provide better oversight of children using the playground equipment.
3. Reorient the softball field and associated fencing so that home plate is closer to the tennis courts in an effort to make the pavilion user friendly.
4. Replace the tennis court fencing.
5. Replace and relocate the memorial benches next to the new playground area.

LONG TERM GOALS
1. The minor court pavement settlement on the existing tennis/pickleball courts will be spot repaired and the entire court will be recoated with an acrylic surface coating.
2. The minor pavement cracking on the existing basketball court will be spot repaired and the entire court will be recoated with an acrylic surface coating.
3. Add parking area off of Strafford Road with a landscaping buffer to ease parking difficulties, as well as widen the current road into the park to allow for diagonal parking near the softball field.

BECKER STREET PARK

- Inventory
- Existing Features Map
- Plans and Goals
- Proposed Site Plan Map
- Cost Estimate
ACREAGE
Approximately 0.7 acres.

CURRENT PARK USE
The majority of Becker Street Park was granted to the Town in 1974 by Dora Iovinella. In 1985 an additional parcel was conveyed to the Town by the County of Schenectady. Together the two parcels served as an open space park for the surrounding community for more than 20 years. In 2008 the Town of Niskayuna installed a small playground. The parcel is located at the intersection of Central Avenue and Becker Street. It currently consists of open space and playground equipment.

EXISTING FACILITIES
Playground Equipment
Open Area
BECKER STREET PARK

EXISTING DEFICIENCIES/PROBLEMS
1. The playground is in good shape but needs to possibly be upgraded and additional equipment may need to be added.
2. The park sign is outdated.

PROJECTED FUTURE USE
The future park use will remain the same as the current park use which is primarily open space and playground equipment.

SHORT TERM GOALS
1. Replace and update the park sign.

LONG TERM GOALS
1. Evaluate the need for upgrades and additional playground equipment.

BLATNICK PARK

- Inventory
- Existing Features Map
- Existing Features Map (zoomed in)
- Plans and Goals
- Proposed Site Plan Map
- Proposed Site Plan Map (zoomed in)
- Cost Estimate
ACREAGE
Approximately 188.2 acres.

CURRENT PARK USE
The Town of Niskayuna purchased the original parkland from Fred and Edna Schecklemann in 1971. At that time the land was a portion of the Witbeck and Shaker Farms. In 1984, the park was renamed from River Road Park to Blatnick Park in honor of Jeff Blatnick. Mr. Blatnick, a Niskayuna born wrestler, battled back from cancer and won an Olympic gold medal in 1984, in Greco-Roman wrestling.

Over time, the park has expanded into property that was once the Town of Niskayuna Landfill (purchased from the Schecklemann family in 1956 and also part of the Witbeck and Shaker Farms). The Town of Niskayuna acquired the adjacent land with baseball fields and a garage in 1975 from Farber Commercial Corporation.

The Town Highway Department maintains an equipment and materials storage area, and the recycling and transfer station. The water and sewer operations building is located in this park as well. The recreational facilities at this park have expanded considerably over the years. The pavilion at this park may be rented from the Town on a per diem basis.

EXISTING FACILITIES
Baseball Fields
Basketball Courts
Tennis Courts
Volleyball Court
Driving Range
Playgrounds
Parking Lots
Lacrosse Box

Pond
Covered Pavilion
Restrooms
Disc Golf Course (9 Holes)
Dog Park
Bird Sanctuary
Access to Bike Trails
Access to John Brown Hiking Trails

TOWN AND COMMUNITY PROGRAMS
Town summer playground camp
Various Town volleyball, tennis, baseball, lacrosse, golf and disc golf programs
Niskayuna Cal Ripken Jr. Baseball
Niskayuna Babe Ruth Baseball
Niskayuna Lacrosse
Niskayuna Women's Tennis
Friends of the Niskayuna Dog Park
EXISTING DEFICIENCIES/PROBLEMS
Blatnick Park was originally a small park area, with the main portion being the Town Public Works Facility, which has evolved over the years into the Town's largest and busiest park. This presents a conflict for traffic access between the Public Works truck/equipment and recreational users. The following problems are noted:
1. The existing Town Highway Department access to their storage area on site is limited and the large Town Highway vehicles have to enter and exit though the main Town Park entrance area.
2. The Water and Sewer Department Building, as well as the Recycling and Transfer Station Facility, are located within the park access and use area. The Water and Sewer Department Building is an aging metal building with insufficient insulation, the layout is not user friendly for the Town needs, and the cost to renovate the old building is too high.
3. The Town Pool and Senior/Community Center are not centrally located in the Town for easy access and use.
4. A multiuse path is needed for pedestrians to safely access the southerly portion of the park.
5. There are existing drainage issues on the Babe Ruth Field and Field #2.
6. The Babe Ruth Concession Building electrical panel and wiring is aged.
7. Field #4 does not have lights.
8. Field #’s 1-4 do not have a nearby concession building and bathrooms.
9. Field #1 and #2 do not have an existing sprinkler system.
10. The tennis courts are used heavily by residents and there is a need for more courts.
11. The Disc Golf area parking and play area is not properly identified. The park sign is outdated.

PROJECTED FUTURE USE
Blatnick Park has become the busiest and most used park. The Town would like to focus on this park as being the main recreational Town Park which is centrally located in the Town. This will be accomplished by:
1. Constructing a new Town pool and Senior/Community Center so that access would be centrally located for all Town residents.
2. Abandon the existing outdated Water and Sewer building along with the recycling and transfer station.
3. A new Highway Department access road will be constructed southerly of the current driveway that will be used for access to the Town Highway storage area.
BLATNICK PARK

SHORT TERM GOALS
1. Add new sign regarding parking and play area details near the existing Disc Golf area. Replace and update the park sign.
2. Demolish the existing Water and Sewer Department Building and Recycling and Transfer Station Facility on park land and build new facilities on WTRY Road.
3. Construct a new access road south of the existing main park entrance road to be used primarily for the Town Highway Department to access their storage area on site.
4. Replace the existing aged electrical and wiring in the Babe Ruth Concession Building.
5. Correct the existing drainage issues on the Babe Ruth Field and Field #2 with new storm water piping.

LONG TERM GOALS
1. Construct a new Senior/Community Center where the existing driving range is currently located. The existing driving range will no longer operate.
2. Construct a new Town Pool adjacent to the new Senior/Community Center.
3. Install lights on Field #4 with associated power panels, conduits, wiring, floodlight fixtures, and poles.
4. Build a concession building with bathrooms near Field #’s 1-4.
5. Install a sprinkler system for Field # 1 and #2, including all piping, control panels, wiring, and electrical.
6. Add two new tennis courts adjacent to the existing ones.
7. Add a new asphalt paved multiuse path for pedestrians to safely access the southerly portion of the park.

COMMUNITY CENTER

- Inventory
- Existing Features Map
- Plans and Goals
- Proposed Site Plan Map
- Cost Estimate
COMMUNITY CENTER

ACREAGE
Approximately 26.3 acres.

CURRENT PARK USE
The Community Center was purchased from the Al Lawrence Estate to provide a swimming pool and Community/Senior Center meeting space for Town residents to use. The current park use is the swimming pool, the Community/Senior Center, football, and lacrosse. The pavilion can be rented from the Town on a per diem basis.

EXISTING FACILITIES
Community Center Building
Outdoor Pool
Volleyball Court
Large Covered Pavilion
Restrooms
Football Field
Lacrosse Fields
Horseshoe Pits
Bocce Ball Pits
Playgrounds

TOWN AND COMMUNITY PROGRAMS
Town Senior Center Programs
Town Swim and Dive Team and lesson programs
Niskayuna Lacrosse
Niskayuna Football
COMMUNITY CENTER

EXISTING DEFICIENCIES/PROBLEMS
1. The Town Pool and associated clubhouse and the Senior/Community Center building are currently located at this location off of Aqueduct Road, which is not in a central location in the Town.
2. There are existing drainage problems between the lacrosse fields and the football field.
3. No existing sprinkler system to water the football field.
4. The existing playground near the pavilion is outdated.
5. The existing parking lot needs to be repaved and restriped.
6. Additional parking is required near the Senior/Community Center building for ease of access for Seniors.
7. The park sign is outdated.

PROJECTED FUTURE USE
The future park use will remain as the current park use which is primarily recreational, football, and lacrosse. The Town would like to focus on the Blatnick Park as being the main recreational Town Park which is centrally located in the Town. They would like to accomplish that by moving the Town Pool and associated clubhouse and the Senior/Community Center building to Blatnick Park and sell the main buildings located at the Community Center.

SHORT TERM GOALS
1. Replace and update the park sign.
2. Install a drainage system to alleviate the drainage problems that exist between the lacrosse fields and the football field.
3. Additional gravel parking will be added near the Senior/Community Center building by Town forces.

LONG TERM GOALS
1. Sell the existing Town Pool and associated pool clubhouse and Senior/Community Center building located at this park to offset the costs of park upgrades. The rear portion of this parcel will still be Town owned such as the two lacrosse fields, football field, pavilion, all associated sports buildings, and two parking lots. The Town will build a new pool facility and Senior/Community Center building at Blatnick Park.
2. Install a new sprinkler system for the football field.
3. Replace the existing playground area near the pavilion.
4. Repave and restripe the existing parking lot.

RIVER ROAD PARK

- Inventory
- Existing Features Map
- Plans and Goals
- Proposed Site Plan Map
- Cost Estimate
RIVER ROAD PARK

ACREAGE
Approximately 18.8 acres.

CURRENT PARK USE
River Road Park was purchased by the Town of Niskayuna from William and Esther Laudato in 1991. It was purchased through a grant for parkland from the New York State Department of Parks, Recreation and Historic Preservation. Most of the improvements to the park were completed in the early 1990's shortly after the park was acquired.

The current park use is primarily softball. The main pavilion can be rented from the Town on a per diem basis.

EXISTING FACILITIES
Pavilions
Restrooms
Softball Fields
Basketball Court
Volleyball Court
Playground (Tot Lot)
Large Open Space
Natural Walking/Exercise Trails
Parking Lots
Horseshoe Pits

TOWN AND COMMUNITY PROGRAMS
Town summer playground camp
Various Town softball, volleyball, basketball and biking programs
Niskayuna Girls Softball League
EXISTING DEFICIENCIES/PROBLEMS
1. Softball Fields #2 and #3 do not have a fence overhang and dugout fencing extensions and also have some fencing issues.
2. Softball Fields #3 and #4 are too wet and do not dry out easily.
3. Softball Field #4 is too small for Varsity Softball.
4. Existing restrooms do not have fans and are in need of updating.
5. Parking is limited on site.
6. Bleachers and storage is limited on site.
7. The trails that connect the park to nearby schools need improvements.
8. Small pavilions are aged and not used much.
9. Exercise stations are outdated.
10. The park sign is outdated.

PROJECTED FUTURE USE
The future park use will remain the same as the current park use which is primarily recreational and softball.

SHORT TERM GOALS
1. Replace and update the park sign.
2. Remove the old exercise stations.
3. Add a fencing overhang, extend the dugout fencing, and repairs minor fencing issues on Softball Fields #2 and #3.
4. Replace the infield mix and add a new storm sewer system for better drainage for Softball Fields #3 and #4. Connect the new storm sewer system into the existing trunk storm sewer which eventually outlets to the stormwater detention pond on the southerly portion of the site.
5. Install fans in the restrooms.
6. Demolish the old small pavilions located at the western edge of the park site.

LONG TERM GOALS
1. Make Softball Field #4 larger to comply with Varsity sized field dimensions.
2. Provide additional parking on site.
3. Provide additional bleachers and a storage shed to house equipment.
4. Improve the trails that connect the park to nearby schools by adding gravel and or asphalt pavement. Apply for grants to cover costs such as Safe Routes to Schools Grant.

ZENNER ROAD PARK

- Inventory
- Existing Features Map
- Plans and Goals
- Proposed Site Plan Map
- Cost Estimate
ACREAGE
Approximately 17.8 acres.

CURRENT PARK USE
This park’s land was donated to the Town by General Electric in 1995. The park was constructed as a joint effort between the Town of Niskayuna and Niskayuna Soccer Club, and is primarily used for recreational and travel soccer programs, and tournaments. In addition, the park is home for the Town's annual Niska-Day Festival.

EXISTING FACILITIES
Soccer Fields
Parking Lot
Covered Pavilion
Concession Building
Access to Mohawk-Hudson bike/hike trail

TOWN AND COMMUNITY PROGRAMS
Niskayuna Soccer Club
Town of Niskayuna Youth Soccer Programs (fall/spring)
Niskayuna Travel Soccer Program and Tournaments
Niska-Day Annual Festival (NCAP)
ZENNER ROAD PARK

EXISTING DEFICIENCIES/PROBLEMS
1. The existing parking lot is a gravel stone surface and creates a dust problem. Replacement gravel needs to be brought in every year to fill pot holes and level the entire parking lot. The gravel is also problematic for the annual Niska-Day Festival.
2. There is no existing sitting/resting/shaded area for visitors near the Balltown Road side.
3. The southerly field is wet during certain times of the year.
4. The park sign is outdated.

PROJECTED FUTURE USE
This park will continue to be used primarily for soccer, but could be available for additional sports activities in the future, based on growing demand for field space. The nearby paved bike path will be extended westerly to the existing gravel parking lot via a grant obtained by the Town.

SHORT TERM GOALS
1. Replace and update the park sign.

LONG TERM GOALS
1. Adapt the complex for multiuse capabilities.
2. Pave the entire gravel parking lot area including a new storm sewer system for drainage needs.
3. Construct a new small covered structure/pavilion for visitors to sit, rest, and get shade with some picnic tables.
4. Add a new storm sewer system to allow the southerly field to dry.

NEXT STEPS

Now that the existing features and future plans and goals of each of the six major parks have been identified, the Town of Niskayuna can use this Town Parks Master Plan as a guide to community recreational facility improvements decision making. The projects that are identified can be implemented as financing becomes available.

The purpose of these recommended projects is to improve the quality and usability of the Parks in the Town of Niskayuna. Each identified project has been given a time frame rating (short term or long term) and associated cost estimate. These items will aid the Town in future budgeting, fundraising and grant solicitation in order to implement such projects.

The next step is to present this Town Parks Master Plan to the residents of the Town of Niskayuna at a public hearing for public comment and feedback. Projects that have significant public support and have available funding or other resources for implementation will be considered a priority.
